VOL. XXIX

BUTLER, MISSOURI, THURSDAY, FEBRUARY 28, 1907.

NO. 18

Don't Suffer  
all night long from toothache  
neuralgia or rheumatism

## Sloan's Liniment

kills the pain - quiets the  
nerves and induces sleep

At all dealers. Price 25c 50c & \$1.00  
Dr. Earl S. Sloan, Boston, Mass. U.S.A.

## DR. J. M. NORRIS SPECIALIST.

ON THE EYE, EAR, NOSE  
AND THROAT.

Gives special attention to the treatment of Catarrh and its effect upon the Ear, Throat and Lungs.

Those in need of Glasses can have the eyes tested free, and properly fitted.

Office on the South side, over Elmer Dixon's store.

Office hours from 9 a. m. to 4 p. m.

### Bishop Atkins Urges Union of Methodists.

Nashville, Tenn., February 17.—Bishop James Atkins urged the unity of at least the two leading branches of Methodism, the northern and southern church. He also urged the expenditure of a million dollars on the Pacific coast by the southern church as the longest step toward the suggested union.

For the united church he advocated a new name, something like the Episcopal Methodist church or the United Methodist church of America. As to its government he suggested a general council, with supervision over matters of jurisdiction, etc., with four lesser councils, one for each section to have supreme control over matters of a nature local to the section, such as the race question. The latter was the issue upon which Methodism divided in the 40s.

DeWitt's Little Early Risers, reliable little pills. Recommended by Clay's drug store north side square.

### From the Pacific Coast.

South Park, Wash., Feb. 18, 1907. TO THE BUTLER TIMES.

MR. EDITOR AND DEAR OLD FRIEND:—Enclosed you will find \$1.00 for the best county weekly in the state of Missouri. Well Jake, the great Fair of 1909 will come off in Seattle two years hence. If you have never visited the coast, it would pay you to come out. It will be the best thing of the kind ever pulled off in the United States. Come and see it. This is a great country. About 195,000 people huddled upon a space of about ten square miles. No land can be bought within ten miles of Seattle for less than \$200 per acre. I am eight miles from the city, but close to a street car line, can go sixteen miles on these cars for one nickel. I would be very glad if you could get someone from Foster, my old home, to write for THE TIMES—Will Darby or some one else. T. J. WILSON.

### Canal Uncovers Coal.

Rich Hill, Mo., February 18.—It is reported here that the contractors digging the canal to drain the Marias des Cygnes river had unearthed a fine 5-foot vein of coal on the bottom lands where the ditch was opened for a starting place for their dredge boat.

Coal has been known to exist under all these bottom lands, by coal men, for the past twenty-five years, but it has been too expensive mining, owing to overflows. Now that the canals are assured fact, it is thought that new shafts, slopes and strip pits will be opened up in large numbers on these lands, as some of the finest coal in the Rich Hill fields exists under this land.

### MUCK RAKE IN OTHER DAYS

Public Men Were Vilified Even  
as They Are Today.

From Leslie's Weekly.

Jackson was called a murderer, coffin handbills were got out by his political enemies during his campaign of 1828 for president, on the lids of which were inscribed the names of his victims, and his opponent, President John Quincy Adams, was accused of robbing the government and of various kinds of villainy. It was charged that Clay bargained to aid Adams in the contest of 1824, as the price of an appointment by Adams as secretary of state, and the charge, which no body in our day believes, and which nobody in any day had a right to believe, hampered Clay to the end of his career.

Lincoln was stigmatized as a clown an ignoramus and a negro worshiper. Grant was denounced as a butcher. Hays was called a thief, the pretense being that he stole the presidency. Garfield, Arthur, Cleveland, Harrison, McKinley and every other president were made the targets of abuse which was shameful in its misrepresentation. And the public men—Webster, Calhoun, Douglas, Seward, Chase, John Sherman, Blaine and others—who did not get as high as the presidency were also the objects of vile assaults.

### A Guaranteed Cure For Piles

itching, blind, bleeding, protruding piles. Druggists are authorized to refund money if PIAZOLINMENT fails to cure in 6 to 14 days. 50c

### House, by Party Vote, Passes Simmons' Senatorial Bill.

Jefferson City, Feb.—By a strict party vote, the Simmons bill, to elect the caucus nominee for United States senator on the day of general election, passed the House. Eleven members failed to answer to the roll call, the majority of whom were Democrats.

Both Democrats and Republicans had caucused on the measure. The Republicans were opposed to it, hoping that some controversy might arise in the Democratic ranks after the day of the general state primary and that some of the Legislature candidates might be defeated as a result.

The bill as passed morally binds the members of the Legislature to support the candidate for United States senator nominated on the same day that they are elected.

This is not the bill recommended in the message of Gov. Folk. He recommended the nomination be made on the day of the general state primary, but the Democrats in caucus decided that it would be better for all of the candidates for United States senator to be out working for the Legislature candidates, as well as themselves, up to the general election.

Eat what you please and take a little Kodol for indigestion after your meals. It digests what you eat. Sold by Clay's drug store.

### Bill Requires Testimony.

Jefferson City, Feb.—The House passed a bill introduced by Representative Hill of Butler county providing that no witness in actions by the State against corporations shall be permitted to refuse to testify or produce papers on the plea of self-incrimination. Such witness, however, is immune from prosecution on account of anything shown by his testimony on the papers he produces.

Hill's bill enacting a new law prohibiting trusts, combinations and agreements in restraint of trade was also passed.

It is indigestible food that causes sourness and painful indigestion. Kodol For Indigestion should be used for relief. Kodol is a solution of vegetable acids. It digests what you eat, and corrects the deficiencies of digestion. Kodol conforms to the National Pure Food and Drug Law. Sold by Clay's drug store.

### SENATE RETAINS APOSTLE

SMOOT; VOTE IS 42 TO 28

Roosevelt Influence and Republicans of Far West Make  
Victory Easy for Mormon.

Stone Opposes and Warner Espouses.

Washington, Feb.—By a final vote of 42 to 28, the Senate voted to retain Reed Smoot, the Apostle of the Mormon Church, in its membership.

Stone, of Missouri, voted with the majority of Democrats against Smoot and Mormonism while Warner, of Missouri, voted with the majority of the Republicans for Smoot and Mormonism.

Senators Burrows, of Michigan, and Newlands, of Nevada, the one a Republican and the other a Democrat, decided the issue in closing the debate.

"The question is," said Senator Burrows, "whether the Senate of the United States, by its recorded vote, will sustain this unchristian, this menacing, this law-defying body represented in the Mormon Church. Will you class the other churches of the land with this criminal organization and drag Christianity down to so low a level?"

Newlands said his vote against Smoot would mean his political death in Nevada, but, he declared, a cardinal principle of our Government is being violated by the Mormon hierarchy in its intrusion upon the essential distinction between church and state. The Mormon Church, he said, controls the politics of Utah, and has the bulwark of power in Nevada, Idaho, Wyoming, Colorado, Arizona and New Mexico. Hence he would vote against such domination.

Thus ends the greatest contest in the history of the United States Senate, which has turned upon a question of religion or faith, and which has extended over three years. Smoot's easy victory is undoubtedly due to President Roosevelt's espousal of his cause, the President chiming in with the wishes of Republican politicians of the far West.

### The Story of a Medicine.

Its name—"Golden Medical Discovery"—was suggested by one of its most important and valuable ingredients—Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical authorities of the world, and are the basis of the "Golden Medical Discovery" for the cure of the diseases for which it is famous.

A little book of these endorsements has been compiled by Dr. E. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompanied with catarrhal discharges, hoarseness, sore throat, lingering, or hang-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It will cure the affections that lead up to consumption, if taken in time.

### 13-YEAR LOCUSTS COMING.

Only Prairie Sections Will be

Exempt From Possible

Devastation.

Columbia, Mo.—"There will be due in Missouri this coming spring the largest brood of the thirteen year locusts, or 'periodical cicadas,' known in this State. The locusts will appear in all the wooded portions of the State, except the north west corner, and they should make their appearance in immense numbers by the latter part of May. The prairie sections will be exempt."

J. M. Steadman, entomologist of the Experiment Station at the University of Missouri, makes this statement in a note of warning, copies of which will be mailed to points throughout the State.

"This brood is one that matures every thirteen years, but is of the same species as those which mature every seventeen years," says Mr. Steadman. "These insects occur in immense numbers near timber lands, and are able to do much damage to newly planted orchards by puncturing the limbs to deposit their eggs."

"One will, therefore, run great risks in setting out an orchard this spring near timber or in thickly timbered regions. It would be advisable before concluding to set trees this spring to consult the older inhabitants in your region as regards the occurrence of the locust thirteen years ago in that locality."

"The eggs which the female cicadas deposit in the twigs of the orchard, forest and shade trees, soon hatch and the young drop to the ground and enter it, remaining there thirteen or seventeen years, according to the breed, and doing no appreciable damage during this time."

"Spraying common whitewash on the limbs of young trees tends to keep the cicada from depositing their eggs there, but it is difficult to reach the limbs and cover them at that season, because the leaves catch and hold the spray. The spraying should be done, if at all, just before or just as soon as the egg-laying process begins."

### To Cure a Cold in One Day.

Take LAXATIVE BROMO QUININE Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25

### School For Humanity.

London, Feb. 25.—Gen. Booth, head of the Salvation Army, wants what he calls a university of humanity. In addressing a meeting of Stock Exchange members he said:

"I am looking for a millionaire to help me form an International University of Humanity. We have universities of arts, sciences and theology; I think we ought to have one for training men and women to deal with the sorrows and miseries of mankind."

### Has Stood The Test 25 Years.

The old, original GROVE'S Tasteless chill tonic. You know what you are taking. It is iron and quinine in a tasteless form. No cure, no pay. 50c

### St. Louis Man is Receiver

For Nevada (Mo.) Company.

Nevada, Mo., Feb.—In the circuit court M. P. Murry of St. Louis was appointed receiver of all the properties of the Missouri Water, Light and Traction Company here. Said properties, including waterworks, light plant and street railway system. The city was threatening to take charge of the properties when the bondholders of the company stepped in and asked for the receivership.

The Missouri Lincoln Trust Company of St. Louis holds bonds of the company amounting, with interest, to \$245,000, and that company's man was made receiver. The trust company promises to repair the various plants and put them in condition to give good service.

### A Valuable Lesson.

"Six years ago I learned a valuable lesson," writes John Pleasant, of Magnolia, Ind. "I then began taking Dr. King's New Life Pills, and the longer I take them the better I find them." They please everybody. Guaranteed at F. T. Clays, drug-gist 25c.

### Was to Wed His Sister.

Calumet, Mich., Feb. 25.—"That looks like my mother's ring," remarked Thomas Pengilly, attracted by a worn gold band, as he was placing an engagement ring upon the finger of Miss Nellie Howell.

"That was my mother's ring," she replied.

The ring prevented the marriage of brother and sister.

After wandering 30 years in Africa and the Lake Superior country, Thomas Pengilly had met his sister in Butte, Mont., was attracted by her manner, loved her and won her hand. After a year's courtship they were to be married. The date had been set. Then the old ring he had seen on the hand of his mother lost him a bride, but gained him a sister. Two happier persons never lived. As a machinist he has prospered and he has begun a search for other brothers and sisters, hoping to be able to aid them.

### Dives to Death on Horse's Back.

San Antonio, Tex., Feb. 25.—Five thousand spectators saw Oscar Smith dive to his death on one of Doctor Carver's horses, Powderface. Smith, known as the "boy bronco buster," volunteered to ride the diving horse, which leaps from a forty-foot platform into a pool of water fourteen feet deep. The horse hit the water nose first, with Smith sitting gracefully on his back. The crowd cheered until the horse came up without the rider. It was twenty minutes before Smith's body was recovered.

### Hunting For Trouble.

"I've lived in California 20 years, and am still hunting for trouble in the way of burns, sores, wounds, boils, cuts, sprains, or case of piles that Bucklen's Arnica Salve won't quickly cure," writes Charles Walters, of Alleghany, Sierra Co. No use hunting Mr. Walters; it cures every case. Guaranteed at F. T. Clays' drug store. 25c.
